

**Overhead and Inverted Free Trolleys
for Power and Free Conveyor Systems**

Providing Superior Solutions

Frost Inc. designs and manufactures OEM Compatible Free Trolleys for Power and Free Conveyor Systems. Our Free Trolleys can replace commonly used Webb (DAIFUKU), Rapid, Acco (Dürr) and FATA style Trolleys used in Conveyor Systems around the world. Frost's Replacement Trolleys can be purchased as fully assembled units. However, you may also purchase select parts on an "as need" basis to maintain your aging Free Trolleys. If your Trolleys are not fully worn out, we provide a rebuild program to help you get extra life out of your equipment. Our experienced Sales and Engineering team can work with you to recommend the best replacement option for your operation.

MAKING A DIFFERENCE

Our Free Trolleys can be found making a meaningful impact in a variety of plants that are equipped for flexible manufacturing. We have a proven track record of providing consistent performance in heavy and often contaminated industrial environments which can be found in the following industries:

- Aerospace
- Coatings / Finishing
- Appliance
- Industrial
- Automotive
- Medical Devices
