

Free Trolley Refurbishment

REBUILDING FOR LONGER SYSTEM LIFE

Frost offers refurbishment for worn Free Trolleys in order to prolong the longevity of your installed Overhead or Inverted Power and Free System. We will work closely with your Maintenance and Engineering teams to provide a restoration process, or recommended changes to your Free Trolley System. Our Free Trolleys can replace commonly used Webb (DAIFUKU), Rapid, Acco (Dürr) and FATA style Trolleys.

Before Refurbishment

After Refurbishment
